

## Math Biography

Write a one page paper, titled "Math and Me" describing your mathematical history. In your paper answer the following questions:

What topics in mathematics did you like and which did you dislike?

Who were the people who played a positive role in your mathematical life and why?

Who played a negative role, and why?

Describe your good mathematical experiences and the bad ones.

In what environments do you learn the best?

What environments might hinder your learning?
